Dear all,

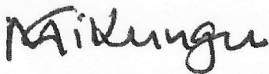

**RE: CHINESE SCHOLARSHIPS FOR YOUNG RESEARCHERS 2023**

I would like to inform you that Chinese government through University of Chinese Academy of Science (UCAS) has announced scholarships for young researchers. The details on the available scholarships and requirements thereof are given in the following link:  
<https://englishucas.ac.cn/index.php/admission/international-students>

As part of the SAJOREC project steering committee (PSC), for the project “*Biological Resources Research and Capacity Building for Sustainability of Kenya’s Natural Heritage: A China-Kenya Collaboration*” now amended to “*strengthening taxonomic and ecological research for enhanced biodiversity conservation in Kenya*”, it is important that you are aware of these opportunities so that you can bring it to the attention of your staff for their action. Given the scholarship rigorous procedure it is important that those who are eligible to apply should start the process as soon as possible since the submission deadline is early 2023.

Thank you

Yours sincerely,

Prof. Mary W. Gikungu

**Director, National Repository & Research, Chair SAJOREC Project Steering Committee**
